

ADVENTURES IN RENEWAL

*The Spirit of God is alive and active,
leading the Church through every change and every age.*

*Our task as leaders is to create an environment in which
people can deepen their attentiveness to God's influence in their lives.*

*God's invitation today is to set aside the institutional dilemmas your
church may be facing, not because they aren't real
and don't need to be addressed, but because
**the best way to address them is first to learn to be led by God
into deeper connections with one another and our neighbors.**
This is, and has always been, the path of church renewal.*

Most importantly, God is at the center of this process.
