

Field Work

Our fieldwork between now and the next step are these three things:

1. Dwelling in the Word, with your team.

If you have never used the Acts 16 passage for an extended period of time, we strongly encourage you to start with that.

If you have spent a significant amount of time in Acts 16 before, you could continue by using Luke 10:1-11.

2. After your team has practiced Dwelling in the Word several times, begin planning for a couple of simple ways for the team to lead the practice with larger groups in the congregation (council, other ministry teams, Bible study groups, even Sunday morning worship!)

3. Spend some time as a team reflecting on the “Asking God Questions” sheet and brainstorming a few more to add to the list.

Look at the notes you are taking from your Dwelling in the Word discussions to find some ideas!
