

Why Camp Hero?

Mass incarceration continues to be one of the largest issues our country faces. It has been detrimental to millions of families. Camp Hero is a five-day camp designed for children who have been impacted by incarceration. While building community, we give parents an affordable and well-deserved break.

Our Mission Statement

It is our mission to help youth develop a deeper understanding of their connections both with God, the infinite and immovable source of all creative energy and their connections with the human race.
