

Black String Triage Ensemble

Being on call as a chaplain

Notes from Music Director Dayvin Hallmon

1. All “on calls” will begin with us gathering at the following address: 5204 West Washington Blvd. Milwaukee, WI 53208. This will be our "firehouse" location.
2. Clergy should come with their collar on.
3. If you are interested, please provide your most reliable method of contact (cell phone or e-mail). Occasionally, an “on call” may be cancelled due to a lack of musicians being available.
4. Clergy have total freedom to speak to whomever at the scene.
5. The musicians and music director do not need to be told anything about the scene or what has transpired. The less we know the better. We have to be totally focused on providing the music. After we have packed up and are leaving a scene or when we arrive back at the firehouse location, clergy can update the musicians.
6. If a person at the scene or law enforcement makes a request to speak to the music director, the clergy present can facilitate that after the musicians have finished their work at the scene.
7. None of us are ever out past 1:00 AM. Any shootings that occur, or shootings that we receive a notification about after 11:30PM we do not respond to. If a mass shooting occurs, we may disregard this particular rule for that instance.
